7 Steps to Quality Improvement

PERIPrem

Before you start:

People

Bring your perinatal team together
Who are the right people for this work?
Are your team engaged and committed?

Problem
Discuss and understand the bundle element in the context of your units

1

Aim
What do you want to achieve? How much? By when?

2

Measures
How will you measure the benefits?

3

Plan
Driver diagram / action plans / communications

4

Change Ideas
Never just one idea - Experiment! Be creative; use innovation

5

Test and learn
Understand why something failed, learn from the data and try again

6

Spread
Tell your story
Share what worked
Share learning with the PERIPrem community

7
