

Preventing Surgical Site Infection across a Region

We're delighted to celebrate these amazing results from the project...

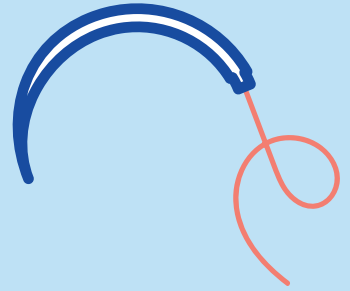

Compliance with the PreciSSlon bundle elements at CGH:

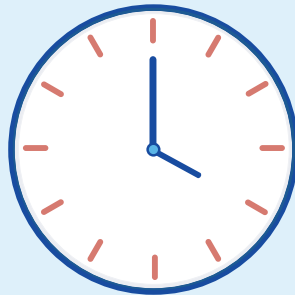

70%
Chlorhexidine

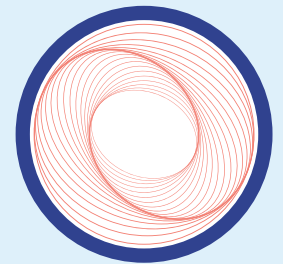

52%
Antibacterial sutures

25%
Second dose antibiotics after 4 hours

39%
Wound protectors

Figures from 210 patients

Thank you for all your help in making PreciSSlon such a success!
