

PreciSSlon

Preventing Surgical Site Infection across a Region

Gloucestershire Royal Hospital

We're delighted to celebrate these amazing results from the project...

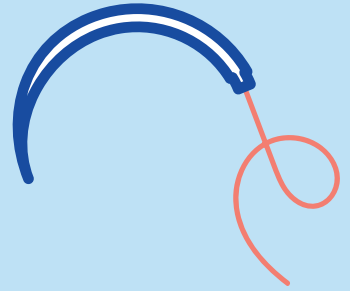

Compliance with the PreciSSlon bundle elements at GRH:

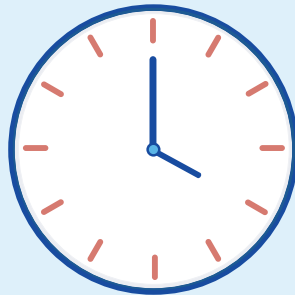

75%
Chlorhexidine

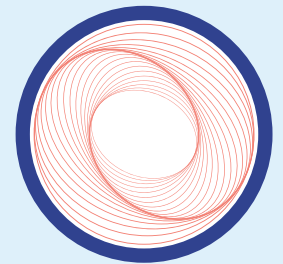

60%
Antibacterial sutures

50%
Second dose antibiotics after 4 hours

35%
Wound protectors

Figures from 220 patients

Thank you for all your help in making PreciSSlon such a success!
