

# PreciSSlon

## Preventing Surgical Site Infection across a Region

We're delighted to celebrate these amazing results from the project...

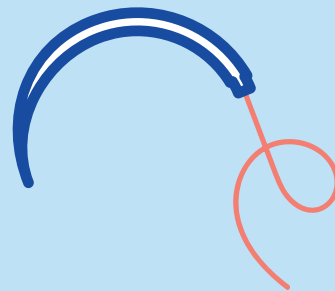

### Compliance with the PreciSSlon bundle elements:

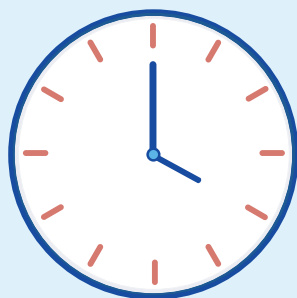

**87%**  
Chlorhexidine

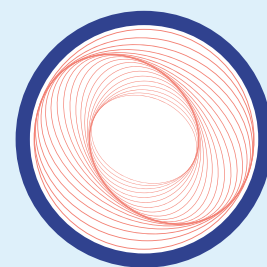

**79%**  
Antibacterial sutures

**72%**  
Second dose antibiotics after 4 hours

**68%**  
Wound protectors

Figures from 1270 patients

Thank you for all your help in making PreciSSlon such a success!
